¹Due to manufacturing tolerances and continued product improvement, this specification is subject to a variance of +/- 3%.

²Varies with user weight, terrain type, battery amp-hour (AH), battery charge, battery condition and tire condition. This specification can be subject to a variance of (+ or -) 10%.

³AGM or gel cell type recommended.

⁴Battery weight may vary based on manufacturer.

⁵Tested in accordance with ANSI/RENSA, WC Vol 2, Section 4, and ISO 7176-4 standards. Results derived from theoretical calculations based on battery specifications and drive system performance. Test conducted at maximum weight capacity.

⁶LR version only.
